## Goals

### *TO HELP 5TH AND 6TH GRADERS...*

- Understand themselves as persons of worth, creations of God, who have the special quality of being male or female.
- Grow in understanding and appreciating themselves as sexual human beings.
- Work toward understanding that puberty and the physical changes that take place during those years are a part of God's plan for growth and development.
- Learn more about the human body and reproduction in order that they may better understand themselves as sexual persons.
- Be able to ask questions and clarify understandings about conception, pregnancy, and birth.
- To learn accurate information about their own bodies.
- To have the opportunity to reflect on the love and caring that surrounds them, to voice their dreams for themselves, and to become more comfortable with the vocabulary of human sexuality.

### *TO HELP PARENTS....*

- Define their own sexual knowledge, and to help them learn the best way to communicate with their children.
- To explore Christian meanings of masculinity and femininity in place of stereotyping.
- To help your children with ethical decisions.
